

EXPERIENCE

APR 2019 –

PRODUCT DESIGNER
UBIQUITI INC (Prague, Czechia)

Working on UISP (formerly UNMS), a tool for managing network and customers for Wireless Internet Provider. Currently implementing the design system for Ubiquiti's flagship product (UniFi) into UISP. Also working on WiFiman, a WiFi detecting and troubleshooting tool for Mobile.

JUN 2014 –
APR 2019

PRODUCT DESIGNER
STRV (Prague, Czechia)

Responsible for the complete design process of a product—starting from research, wireframes and user-flows to visual design and promotion; in addition to writing articles and other internal documents. Focused primarily on mobile applications for both Android and iOS, but not excluding desktop software and web-based applications.

FEB 2018 –
JAN 2019

DESIGN TEAM LEAD
STRV (Prague, Czechia)

I was responsible for finding the best designer for each upcoming project; recruiting; communicating with sales, and dealing with estimates for potential new projects; as well as generally ensuring the output of the design team maintained the quality it is known for. Management was unfortunately not something I wanted to do at that point in my career so I ended up going back to Product Design in January 2019.

JUL 2012 –
JUN 2013

UI DESIGNER
WIME (Queretaro, Mexico)

Designing web layouts, branding design, occasional Wordpress content managing, client interaction and project presentations. Also in charge of producing bi-weekly infographics, and responsible for all the User Experience/Interface Design projects in the studio.

EDUCATION

SEP 2007 –
DEC 2011

BACHELOR OF ARTS IN GRAPHIC DESIGN
UNIVERSIDAD DEL VALLE DE MÉXICO (Queretaro, Mexico)

ETC
